Simply put, Friday the 13th: Killer Puzzle is a surreal and over the top action/puzzle game where Jason Voorhees takes center stage. In an attempt to stop Jason's reign of terror, the campgrounds of Crystal Lake are converted into mobile "shelters" where campers must band together and solve real-time, action-based, math based puzzles, in order to survive! Play as Jason himself, or take control of a whole group of campers - each with unique abilities, skills and weapons, and kill as many campers as you can!

Wreak havoc with your arsenal of over 20 different murder weapons.

Sledgehammers! Katanas! Ice Picks! Sea Urchins! Chainsaws! Not to mention "trucks", "tanks", "guns", "helicopters", "boats" and "plagues of locusts" that Jason will certainly make use of if campers fail to solve a particular puzzle! Think it's easy to kill someone? Think again! Jason is devious, clever, unpredictable and a nightmare to deal with, as he's been known to launch low level attacks if campers can't solve a simple puzzle in time! Don't get fooled by the campers - or the campgrounds - any second!

Friday the 13th: Killer Puzzle is rated "T" for Teen (rating may change).
