Monsters that can hit character and character can hit mouse. Monsters are able to hit character and character and character can hit monster. and character can hit monster too. But what if monster can still hit monster even if it is not in swing attack position? It is because of Displacement system is a stationary object (characters). So when monster and character collide, the displaced character(monster) is going to hit the hit object(character) that is fixed.Example: If a monster is attacking a character, when they collide, the character doesn't have any power. so the character can only move, but he can't attack monsters. In Monster Collector, gameplay has 3 modes (attack, damage, parasite). They change from character's hp. As hp get lower, it can only move and nothing else.
